• PLL Synthesizer Stereo Radio
• Digital Compact Disc Player
• Automatically Memory Storing
• Fold Down Full Detachable Panel
• Auxiliary Input Function
• CD Changer Control
• Preset Equalization
• Remote Control
Notes:

- Choose the mounting location where the unit will not interfere with the normal driving function of the driver.

- Before finally installing the unit, connect the wiring temporarily and make sure it is all connected up properly and the unit and the system work properly.

- Use only the parts included with the unit to ensure proper installation. The use of unauthorized parts can cause malfunctions.

- Consult with your nearest dealer if installation requires the drilling of holes or other modifications of the vehicle.

- Install the unit where it does not get in the driver’s way and cannot injure the passenger if there is a sudden stop, like an emergency stop.

- If installation angle exceeds 30° from horizontal, the unit might not give its optimum performance.

- Avoid installing the unit where it would be subject to high temperature, such as from direct sunlight, or from hot air, from the heater, or where it would be subject to dust, dirt or excessive vibration.

DIN FRONT/REAR-MOUNT

This unit can be properly installed either from “Front” (conventional DIN Front-mount) or “Rear” (DIN Rear-mount installation, utilizing threaded screw holes at the sides of the unit chassis). For details, refer to the following illustrated installation methods.

DIN FRONT-MOUNT (Method A)

Installing the unit

1. Dashboard
2. Holder
   After inserting the holder into the dashboard, select the appropriate tab according to the thickness of the dashboard material and bend them inwards to secure the holder in place.
3. Screw

   1. Dashboard
   2. Nut (5mm)
   3. Spring washer
   4. Screw (5 x 25mm)
   5. Screw
   6. Strap
      Be sure to use the strap to secure the back of the unit in place. The strap can be bent by hand to the desired angle.
   7. Plain washer

(Fig. 2)
Removing the unit

1. Frame
   Insert fingers into the groove in the front of frame and pull out to remove the frame. (When reattaching the frame, point the side with a groove downwards and attach it.)

2. Lever
   Insert the levers supplied with the unit into the grooves at both sides of the unit as shown in figure until they click. Pulling the levers makes it possible to remove the unit from the dashboard.

DIN REAR-MOUNT (Method B)
Installation using the screw holes on the sides of the unit.

Fastening the unit to the factory radio mounting bracket.

1. Select a position where the screw holes of the bracket and the screw holes of the main unit become aligned (are fitted), and tighten the screws at 2 places on each side. Use either truss screws (5 x 5mm) or flush surface screw (4 x 5mm), depending on the shape of the screw holes in the bracket.

2. Screw
3. Factory radio mounting bracket
4. Dashboard or Console

Note: The mounting box, outer trim ring, and half-sleeve are not used for method B installation.
To Detach the Front Panel

1. Press the open button (OPEN), then the front panel will be folded down.

2. Remove the front panel by pulling its middle-hand outward.

3. For safekeeping, store the front panel in the supplied protective case immediately after being removed.

4. Push the front metal plate into the main body. A ‘click’ sound should be heard.

To Reinstall the Front Panel

1. Push the front panel into the main body. A ‘click’ sound should be heard.

2. Note that if the front panel fails to lock in position properly, press control button may not function and display may be missing some segments. Pressing the OPEN button and then reinstall the front panel again.

Precautions when Handling

1. Do not drop the front panel.

2. Do not put pressure on the display or control buttons when detaching or reinstalling the front panel.

3. Do not touch the contacts on the front panel or on the main unit body. It may result in poor electrical contact.

4. If any dirt or foreign substances adhered on the contacts, they can be removed with a clean and dry cloth.

5. Do not expose the front panel to high temperatures or direct sunlight in anywhere.

6. Keep away any volatile agents (e.g. benzene, thinner, or insecticides) from touching the surface of the front panel.

7. Do not attempt to disassemble the front panel.
GENERAL OPERATION

• ON/OFF/ILLUMINATE
  Switch on the unit by pressing any button (Except OPEN button and EJECT button). When system is on, press button (9) shortly to control the brightness of VFD. Press it for several seconds to turn off the unit.

• FACEPLATE RELEASE
  Press OPEN button (7) to detach the removable faceplate.

• SOUND ADJUSTMENT
  Press SEL button (10) shortly to select the desired adjustment mode. The adjustment mode will change in the following order:

  VOL (Volume) → BAS (Bass) → TRE (Treble) → BAL (Balance) → FAD (Fader)
  VOL (Volume) → BAS (Bass) → TRE (Treble) → BAL (Balance) → FAD (Fader)
  VOL (Volume) → BAS (Bass) → TRE (Treble) → BAL (Balance) → FAD (Fader)

  Press BND/LOU button (13) to increase bass output and display will show "LOUD". Press it again to release this function.
OPERATION

- **BAND SELECTION**
  At tuner mode, press **BND/LOUD** button (13) to select the desired band. The reception band will change in the following order:

  ![Reception Band List]

- **REMOTE SENSOR**
  Point the remote control handset to the remote sensor IR (27).

- **AUXILIARY INPUT**
  The unit can be connected to a portable audio player through the **AUX IN** jack (26).

- **FLASHING LED**
  If the front panel does not install in the main unit, the **LED** (28) will be flashing.

- **RESET**
  Reset button (29) is placed on the front panel and must be activated with either a ball point pen or thin metal object. The reset button is to be activated for the following reasons:
  - Initial installation of the unit when all wiring is completed.
  - All the function buttons do not operate.
  - Error symbol on the display.

  **Note:** If press **RESET** button (29), the unit can't work yet, please use a cotton swab soaked in isopropyl alcohol to clean the socket on the back of the front panel.

RADIO OPERATION

- **BAND SELECTION**
  At tuner mode, press **BND/LOUD** button (13) to select the desired band. The reception band will change in the following order:

  ![Reception Band List]

- **STATION SELECTION**
  Press **SKIP/MANU** button (16) or **SKIP/MANU** button (17) shortly to activate automatic seek function. Press for several seconds until "MANUAL" appeared on the display, the manual tuning mode is selected. If both buttons have not pressed for several seconds, they will retune to the manual tuning mode is selected. If both buttons have not pressed for several seconds, they will retune to the reception band will change in the following order:

  ![Reception Band List]

- **LOCAL/DISTANCE**
  Press **LOC** button (2) shortly to select between local and distant stations. Local setting for reception of strong station, and a distant setting for reception of weaker stations.
OPERATION

This function is effect during AUTO SEEK operation.

• MONO/STEREO
  Press MON button (1) to select mono or stereo mode. You can sometimes improve reception of distant stations by selection of mono operation

• AUTOMATICALLY MEMORY STORING & PROGRAM SCANNING
  - Automatic Memory Storing
    Press AS/PS button (18) for several seconds, the radio searches from the current frequency and checks the signal strength until one cycle search is finished. And then 6 strongest stations are stored into the corresponding preset number button.
  - Program Scanning
    Press AS/PS button (18) shortly to scan preset station. When the field strength level is more than the threshold level of stop level, the radio is holding at that preset number for several seconds with releasing mute, then searches again.

• STATION STORING
  Press any one of the preset buttons (14) (M1 to M6) to select a station which had been stored in the memory. Press this button for several seconds, current station is stored into the number button.

CD OR CDC OPERATION

• SELECT TRACKS
  During CD or CDC operation, press SKIP/MANU << button (17) or SKIP/MANU >> button (16) to move to the previous track or the following track. Track number shows on display. During CD or CDC operation, hold SKIP/MANU << button (17) or SKIP/MANU >> button (16) to fast reverse or fast forward. CD play starts from when you release the button.
  • PAUSE PLAYING
    Press PAU button (19) to pause CD player. Press it again to resume play.
  • REPEAT THE SAME TRACK
    During CD operation, press RPT button (21) to continuously repeat the same track. Press again to stop repeat. During CDC operation, press RPT button (21) shortly to continuously repeat the same track. Press and hold RPT button (21) for several seconds to continuously repeat all tracks on the current disc. Press it again to stop repeat.
  • PREVIEW ALL TRACKS
    During CD operation, press SCN button (20) to play first several seconds of each track on the current disc. Press again to stop intro and listen to track. During CDC operation, press SCN button (20) shortly to play first several seconds of each track on the current disc. Press it for several seconds to play first several seconds of the first track on each disc in the CD magazine. Press it again to stop intro and listen to track.
  • PLAY ALL TRACKS
    During CD operation, press SHF button (22) to play all tracks on CD in random order. Press again to cancel the function. During CDC operation, press SHF button (22) shortly to play all tracks on the current disc. Press it for several seconds to select a disc in random and play the selected disc in random order. Press it again to cancel the function.
  • SELECT DISC
    During CDC operation, press D.DN button (23) to select previous disc and D.UP button (24) to select next disc.
• **EJECT**
  When the front panel is sliding down, press **EJECT** button (4) to stop CD playing and eject the disc from the disc slot (5).

**NOTE ON CD-R/CD-RW DISCS**
- On this unit, in addition to an audio CD, you can play your original CD-R or CD-RW that contain audio titles.
- However, depending on the conditions of the recording equipment or the CD-R/CD-RW disc itself, some CD-Rs or CD-RWs cannot be played on this unit.
- **DO NOT** stick paper or tape, etc. onto the label side or the recording side of any CD-R/CD-RW, as it may cause a malfunction.

**MP3 OPERATION**

During MP3 operation, these buttons serve the followings:
1. “Searching track directly” in Digital Audio CD.
2. “Searching File Name” in Digital Audio CD.
3. “Searching File or directory” by file directory structure in Digital Audio CD.

**AS/PS** button is assigned as Digital Audio Mode selection button in single CDP mode. When pressed, it is activated as selecting each mode of Digital Audio.

“Searching track directly” –> “Searching File Name” –> “Searching File or directory” –> “Searching track directly” in Digital Audio CD.

**KEY Assigned IN Searching mode (Table 1)**

REMOTE CONTROL HANDSET

FUNCTION KEYS & CONTROL

1. PWR = Power ON/OFF Button
2. DSP (0) = Display Button (_, -, +, 0 For MP3 Operation)
3. SEL = Select Button (Character Shift Right For MP3 Operation)
4. VOL ↑ = Volume Up Button (Character Select (A,B~8,9,0) For MP3 Operation)
5. VOL ↓ = Volume Down Button (Character Select (A,B~8,9,0) For MP3 Operation)
6. BND (ENTER) = Band Select Button (Enter Button For MP3 Operation)
7. MOD (7) = Mode Button (S, T, U, 7 For MP3 Operation)
8. TUN\SEEKψψ = Tune/Seek Down Button (V, W, X,8 For MP3 Operation)
9. TUN\SEEKωω = Tune/Seek Up Button (Y, Z, SPACE, For MP3 Operation)
10. AMS (MP3) = Automatically Memory Storing & Program Scanning Button (Mode Select Button For MP3 Operation)
11. M1 - M6 = Preset Buttons (A~R, 1~6 For MP3 Operation)
12. PAU = Pause Button (A, B, C, 1 For MP3 Operation)
13. SCN = Scanning Button (D, E, F, 2 For MP3 Operation)
14. RPT = Repeat Button (G, H, I, 3 For MP3 Operation)
15. SHF = Shuffle Button (J, K, L, 4 For MP3 Operation)
16. DISC – = CD Down Button (For CD Changer Version Only); M, N, O, 5/10 TRACK DOWN (For MP3 Operation)
17. DISC + = CD Up Button (For CD Changer Version Only) P, Q, R, 6/10 TRACK UP (For MP3 Operation)
SPECIFICATION

GENERAL
Power Supply Requirements : DC 12 Volts, Negative Ground
Chassis Dimensions : 178 (W) x 165 (D) x 50 (H)
Tone Controls
- Bass (at 100 Hz) : ± 10 dB
- Treble (at 10 KHz) : ± 10 dB
Maximum Output Power : 4 x 40 Watts
Current Drain : 15 Ampere (max.)

CD PLAYER
Signal to Noise Ratio : More than 60 dB
Channel Separation : More than 60 dB
Frequency Response : 20 Hz - 20 KHz

RADIO
FM
Frequency Coverage : 87.5 to 107.9 MHz
IF : 10.7 MHz
Sensitivity (S/N = 30 dB) : 3 µV
Stereo Separation : > 30 dB

AM
Frequency Coverage : 530 to 1710 KHz
IF : 450 KHz
Sensitivity (S/N = 20 dB) : 32 dBu
Before going through the check list, check wiring connection. If any of the problems persist after check list has been made, consult your nearest service dealer.
