PREPARATION

Please read entire manual before installation.

Before You Start

• Disconnect negative battery terminal. Consult a qualified technician for instructions.
• Avoid installing the unit where it would be subject to high temperatures, such as from direct sunlight, or where it would be subject to dust, dirt or excessive vibration.

Getting Started

• Remove trim ring and mounting sleeve from the unit.
• Install mounting sleeve into opening, bending tabs to secure.
• Connect wiring harness and antenna. Consult a qualified technician if you are unsure.
• Certain vessels may require an installation kit and/or wiring harness adapter (sold separately).
• Test for correct operation and slide into mounting sleeve to secure.
• Snap trim ring into place.

Step 1:
Insert the mounting sleeve into the vessel’s dash panel or installed splashguard.

Step 2:
Bend multiple mounting tabs around the mounting sleeve until the mounting sleeve is secure.

Step 3:
Connect all wiring harnesses and slide the head unit into the mounting sleeve until it clicks into place.

GENERAL OPERATION

Power On/Off  Press or any other button (except EJECT) to turn the unit on. Press to turn the unit off.

Changing Modes  Press MODE to cycle up through the operating modes: AM/FM, Front Aux, Rear Aux, USB, operation of iPod®, Bluetooth and SiriusXM (optional).

Available Modes  SiriusXM mode will not appear unless the SiriusXM Connect Vehicle Tuner (sold separately) is connected.

Operation of iPod mode will not appear unless an iPod device (sold separately) has been connected.

USB and SD modes will not appear unless a USB device or SD card (sold separately) have been connected.

Auxiliary Inputs  The WM4000 offers two auxiliary input ports, a 3.5 mm port on the front panel and an RCA connection on the back of the unit. Use either connection to connect audio device, MP3 player, etc. Press MODE to select AUX FRONT or AUX REAR modes.

Volume  Adjust volume using volume knob (00-46).

Display  Press DISP to select between clock and different types of information, such as radio frequency, CD track/elapsed time or MP3/WMA song information.

Reset  Press RESET upon initial installation or if abnormal operation occurs. Reset button is located behind the front panel.

Set the Clock  With the unit on, press and hold DISP until the clock begins to flash, then release. Press TUNE to adjust the hours and TUNE to adjust the minutes. Press DISP momentarily to save the selected time.

GENERAL OPERATION

**12/24-hour Clock**

The clock will display 12-hour AM/PM time in USA frequency spacing mode (PM 10:00). In European frequency spacing mode, the clock will display 24-hour time (22:00).

**Audio**

Press AUDIO momentarily to select between Bass, Treble, Balance, Fader, Equalizer, Subwoofer and Source Volume Level.

```
→ BASS → TREBLE → BALANCE → FADER → EQ → SUBWOOFER → SOURCE LEVEL
```

**Bass**

Press AUDIO until BASS appears, then rotate volume knob left/right to adjust (-6 minimum / +6 maximum).

**Treble**

Press AUDIO until TREBLE appears, then rotate volume knob left/right to adjust (-6 minimum / +6 maximum).

**Balance**

Press AUDIO until BALANCE appears, then rotate volume knob left/right to adjust (BALANCE LEFT 12 - BALANCE RIGHT 12). BALANCE EVEN represents equal balance.

**Fader**

Press AUDIO until FADER appears, then rotate volume knob left/right to adjust (FADER FRONT 12 - FADER REAR 12). FADER EVEN represents equal fader.

**EQ**

Press AUDIO until EQ appears, then rotate volume knob to select from the following equalization curves: FLAT (default), POP, JAZZ, CLASSIC, BEAT, ROCK and USER. Any manual adjustments to the bass and treble settings are automatically saved as USER.

**Subwoofer**

Press AUDIO until SUBWFR appears, then rotate volume knob left/right to adjust (0 minimum / +12 maximum).

**Note:** Subwoofer option will not appear if the REAR/SUB option in the setup menu is set to REAR. Refer to page 7 for details.

**Source Volume Level**

The source volume level control allows a gain adjustment for each audio source: AM, FM, WB, AUX FRONT/REAR, operation of iPod, USB, SD card, Bluetooth and SiriusXM. Set the source volume level for each mode, depending on the relative volume of each audio source.

To set the source volume level, press AUDIO until SOURCE LEVEL appears. After one second, the current mode will appear on the display. Turn the volume knob to adjust the audio level of the current source (-6 minimum/+6 maximum).

**Note:** Only the current mode will be available for adjustment. To adjust another mode of operation, press MODE until the desired mode is selected, then set the source volume level for that mode.
## AM/FM TUNER OPERATION

**Seek Tuning**
Press TUNE ← or TUNE → for more than one second to seek to the next strong station. Press and hold to advance quickly.

**Manual Tuning**
Press TUNE ← or TUNE → momentarily to change radio frequency up or down one step at a time.

**Band**
Press BAND to select between FM1, FM2, FM3, AM1, AM2 and WB bands.

### Storing and Recalling Station Presets
Up to 18 FM stations and 12 AM stations can be stored. To store a station, select the desired band and station. Press and hold the desired preset button (1-6) for more than 2 seconds.

When stored, the preset number will appear in the display. The station can be recalled anytime by pressing the corresponding preset button.

---

## WEATHER BAND TUNER OPERATION

**Band**
Press BAND to select weather band (WB).

**Manual Tuning**
Press TUNE ← or TUNE → momentarily to seek the next weather band station.

### Storing and Recalling Presets
Up to 6 weather band stations can be stored. To store a station, select the weather band and the desired station. Press and hold the desired preset button (1-6) for more than 2 seconds.

When stored, the preset number will appear in the display. The station can be recalled anytime by pressing the corresponding preset button.
SIRIUSXM VEHICLE TUNER CONNECTIONS

Connecting the SiriusXM Vehicle Tuner (sold separately)

SiriusXM Satellite Radio operation requires the connection of the SiriusXM Connect Vehicle Tuner (sold separately).

Note: The SiriusXM Connect Vehicle Tuner must have the SiriusXM logo to be compatible with the WM4000.

To connect the SiriusXM Vehicle Tuner, follow the instructions provided with the tuner. When connecting the tuner to the WM4000, the cable orientation should be connected as shown below.

Line up the connector with the pins on the cable. It can only be inserted as shown above. Push the cable into the head unit’s connector until it clicks. Attempting to insert the cable differently from shown above may cause damage to the cable or head unit.

SIRIUSXM VEHICLE TUNER OPERATION

SiriusXM Satellite Radio Overview

Everything worth listening to is on SiriusXM, getting over 130 channels, including the most commercial-free music, plus the best sports, news, talk and entertainment. A SiriusXM Vehicle Tuner (sold separately) and Subscription are required. For more information, visit www.siriusxm.com.

Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries. All other marks and logos are the property of their respective owners. All rights reserved.

Tuner Activation

To listen to SiriusXM Satellite Radio, a subscription is required. Activate the SiriusXM Vehicle Tuner using one of the two methods below:

- **Online**: Go to “www.siriusxm.com/activatenow” and choose ACTIVATE RADIO.
- **Phone**: Call 1-800-XM-RADIO (1-800-967-2346).

Activation typically takes 10-15 minutes, but may take up to an hour. It is recommended to leave your vehicle on until the “Subscription Updated” message appears.
SIRIUSXM VEHICLE TUNER OPERATION

Radio ID

To view the Radio ID on the LCD, press TUNE ►► or TUNE ◄◄ until channel 0 appears. The 8 character Radio ID will appear on the display. The Radio ID is also printed on the underside of the SiriusXM Vehicle Tuner.

Note: The Radio ID does not use the letters I, O, S, F.

Listening to SiriusXM Satellite Radio

After installation of the SiriusXM Vehicle Tuner, press MODE until SiriusXM mode appears to begin listening to SiriusXM Satellite Radio.

Changing Channels

Press TUNE ►► or TUNE ◄◄ to change SiriusXM channels. Press and hold to advance quickly.

Band

Press BAND to select between the SXM1, SXM2 and SXM3 bands. Up to six presets can be programmed for each band, for a total of 18 SiriusXM Satellite Radio channel presets.

Setting Channel Presets

To store a channel, choose a Band (SXM1-SXM3), then tune to the desired channel. Press and hold a preset button (1-6) on the front panel or remote control for more than two seconds. When stored, a beep sound will be heard and the preset number will appear in the display.

Recalling Channel Presets

The preset channel can be recalled by pressing the corresponding preset button.

Note: Buttons 7,8,9,0 on the remote control are not associated with channel presets.

Channel List

Press SELECT to enter the channel search menu. With "CHANNEL LIST" highlighted, press SELECT to browse through a list of all available channels.

- Turn the volume knob to cycle through the list of channels.
- When the desired channel appears on the top line of the display, press SELECT to begin listening to that channel.

Note: Press DISP to change between the channel name, artist name, song title or content info.

Category Search

Press SELECT to enter the channel search menu. Turn the volume knob until "CATEGORY BROWSE" is highlighted, and press SELECT to browse through a list of all available channels.

- Turn the volume knob to cycle through the list of categories.
- Press SELECT to choose a category and display the channels in that category.
- Turn the volume knob to choose desired channel, then press SELECT to begin listening.
SIRIUSXM VEHICLE TUNER OPERATION

SiriusXM Setup Menu

To access the SiriusXM setup menu options, press and hold AUDIO/MENU for more than 3 seconds, press AUDIO/MENU to cycle through menu options until "SIRIUSXM SETUP" appears, then press SELECT. Press AUDIO/MENU to cycle through the list of submenu options.

| **CHECK ANTENNA** | • Ensure the SiriusXM antenna cable is connected to the SiriusXM tuner correctly.  
• Check the SiriusXM antenna wire for breaks or sharp bends. Replace the antenna if necessary.  
• Press **RESET** located behind the front panel. If the message remains, the antenna may have been damaged. |
| **NO SIGNAL** | • The vehicle must be outside, and the antenna must have a clear view of the southern sky.  
• The magnetic antenna must be mounted on the outside of the vehicle for the best reception. |
| **CHANNEL UNSUB** | • This channel is not included in your SiriusXM subscription plan. Call 1-800-XM-RADIO (1-800-967-2346) to subscribe. |
| **CHANNEL UNAVAIL** | • This channel is not a valid SiriusXM channel. The channel number has been entered incorrectly, or the channel was removed from the SiriusXM channel lineup. |
| **CHANNEL LOCKED** | • The selected channel has been locked by the parental control option.  
• A prompt to enter the unlock code will appear. Enter the unlock code as described on page 12. |
| **SUBSCRIP UPDATED** | • An update to your SiriusXM subscription has been received by the SiriusXM tuner. Press any key to continue. |
# ITUNES® TAGGING (SIRIUSXM MODE)

## Requirements
The iTunes Tagging feature of the WM4000 requires the optional SiriusXM Connect Vehicle Tuner (sold separately).

## Overview
iTunes Tagging allows the user to "Tag" songs that are playing on SiriusXM Satellite Radio channel and enables them to be purchased later through iTunes. With the touch of a button the unit will remember the title and artist song information, and then transfer that information to your iPod device the next time you connect it to the WM4000. A new list called "Tagged" will appear in iTunes, giving you the option to purchase each song.

## Tagging Music

### Step 1
Tune to a SiriusXM channel. The TAG button on the LCD will illuminate, indicating that a valid artist name and song title are available.

### Step 2
Press and hold the TAG button (push in the volume knob and hold). A confirmation will be displayed, indicating that the song information has been saved. The song information will be saved in memory until an iPod device is plugged in. Up to 64 SiriusXM Tags can be saved before they must be transferred or deleted.

### Step 3
Transfer Tags to an iPod/iPhone.
- Connect an iPod/iPhone device. The mode will change to operation of iPod and Tags will be automatically transferred to the device, removing the Tags from the WM4000’s internal memory. A confirmation message will appear confirming the number of tags sent. The WM4000 must remain in operation of iPod mode until the "TAGS SENT" message is displayed.
- If an iPod/iPhone device is connected when a song is tagged, Tags will transfer automatically to the device. The unit must remain in SiriusXM mode until the "TAGS SENT" message is displayed. (See page 15 for compatibility with iPod devices.)

**Note:** Tags can only be sent from SiriusXM or operation of iPod modes.

### Step 4
Sync with iTunes. A list named “Tagged” will appear on the left in the iTunes software. Click on the "tagged" list to view all the songs that have been tagged and click the "view" button for purchase information.

## Deleting All Tags
Press and hold AUDIO/MENU to enter the setup menu and select the "Delete Tags" option. See page 12 for details.

**Note:** Once transferred, Tags are managed from the iTunes software.
ITUNES® TAGGING (SIRIUSXM MODE)

Troubleshooting

Compatibility

Device Compatibility with iTunes Tagging

Compatible with:
- iPod touch (4th generation)
- iPod touch (3rd generation)
- iPod touch (2nd generation)
- iPod classic
- iPod nano (6th generation)
- iPod nano (5th generation)
- iPod nano (4th generation)
- iPhone 4
- iPhone 3GS
- iPhone 3G

Note: Some iPod devices may require you to select ‘transfer purchases’ in the context menu from the name of your iPod device to transfer Tags to iTunes.

Go to www.apple.com/itunes for the latest version of the iTunes software.
USB/SD CARD OPERATION

Connecting a USB Device (sold separately)
To play MP3/WMA files from most USB mass storage devices, open the USB cover door, line up the USB connector and insert the USB device into the WM4000’s USB port.

Connect an SD Card (sold separately)
To play MP3/WMA files from an SD Card, insert an SD card into the SD card slot, located behind the front panel. Insert the SD card with the label facing to the right, and press the card until it clicks into place. Remove the SD card by pressing in until it clicks, then pull to remove.

Playing Music
When a USB or SD card device is first connected, playback will begin momentarily. Depending on the number of files and folders, it may take several seconds for the device to begin playing. If no valid MP3/WMA files are detected, “NO FILE” will be displayed and the last mode will be resumed.

Track Select
Press TRACK ▶▶ to skip to the beginning of the next track. Press TRACK ◀◀ to return to the beginning of the current track. Pressing TRACK ◀◀ again skips to the beginning of the previous track.

Fast Forward and Reverse
Press and hold TRACK ▶▶ or TRACK ◀◀ to fast forward or reverse a track.

Pause
Press ◀▶/ ■ to temporarily stop USB/SD Card playback. Press ◀▶/ ■ again to resume playback.

File/Folder Search

Step 1
Press SELECT to enter the file/folder search mode. A list of all the folders from the USB/SD Card device will be displayed. Folders that do not contain music will be ignored.

Note: Any files located in the root directory will be located in the folder named “ROOT”. Press SELECT to view the files on the root folder.

Step 2
Turn the volume knob to cycle through all the folders on the device and press SELECT to choose the desired folder. The list of files in the selected folder will be displayed. Turn the volume knob to cycle through the list of files.

Note: Pressing ESC when viewing the contents of a folder will return to the list of folders on the USB/SD Card device. Press ESC again to exit the search menu.

Step 3
Once the desired song is displayed, press SELECT to begin playback of the desired song.

Note: Due to differences in USB/SD Card device transfer speeds, it is recommended to limit each folder to less than 30 songs.
USB/SD CARD OPERATION

**Displaying Information**

When a file is accessed, the clock and elapsed time will be displayed. Press DISP momentarily to select between song title, artist, file name, folder name, track number and clock/elapsed time.

"NO TITLE" will be displayed if no song title information is available.

"NO ARTIST" will be displayed if no artist information is available.

**Title Icon: TITLE**

This icon will illuminate when the song title is displayed.

**Artist Icon: ARTIST**

This icon will illuminate when the artist name is displayed.

**Folder Icon: FOLDER**

This icon will illuminate when the folder name is displayed.

**File Icon: FILE**

This icon will illuminate when the file name is displayed.

**Folder Access**

Press ← to select the previous folder.

Press → to select the next folder.

**Repeat**

Press RPT to enter the Repeat menu, then turn the volume knob to select one of the following options:

- **ALL** - Plays all tracks on the device.
- **SONG** - Continuously repeats selected track.
- **FOLDER** - Continuously repeats all files in selected folder.

**Random**

Press RDM to enter the Random menu, then turn the volume knob to select one of the following options:

- **OFF** - Cancels the RDM function.
- **ALL** - Plays all tracks in random order.
- **FOLDER** - Plays all tracks in folder in random order.

**Note:** Random mode is retained in memory when selecting between other modes and when the unit is turned on/off.

**Preview**

Press PRE to enter the Preview menu, then turn the volume knob to select one of the following options:

- **OFF** - Cancels the PRE function.
- **ALL** - Plays first 10 seconds of each track.
- **FOLDER** - Plays first 10 seconds of each track in folder.

## Connecting an iPod/iPhone Device

**USB Connection**

Using the "dock connector to USB" sync cable (provided with the iPod/iPhone device), plug the USB cable into the WM4000’s USB port. Once connected, playback will begin automatically.

## Controlling a Device: Full Control

When the control of iPod/iPhone feature is set to "FULL" in the Setup Menu, use the following functions to control the device:

<table>
<thead>
<tr>
<th>Function</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Song Select</strong></td>
<td>Press ➤➤ to skip to the beginning of the next song. Press ◀◀ to return to the beginning of the current song. Pressing ◀◀ again skips to the beginning of the previous song.</td>
</tr>
<tr>
<td><strong>Fast Forward/Reverse</strong></td>
<td>Press and hold ➤➤ or ◀◀ to fast forward or reverse a song.</td>
</tr>
<tr>
<td><strong>Pause</strong></td>
<td>Press ➤/❚❚ to temporarily stop playback. Press ➤/❚❚ again to resume playback.</td>
</tr>
</tbody>
</table>
| **Repeat**       | Press RPT to enter the Repeat menu, then turn the volume knob to select one of the following options:  
  - ALL - Repeats all tracks.  
  - SONG - Repeats selected track. |
| **Random**       | Press RDM to enter the Random menu, then turn the volume knob to select one of the following options:  
  - OFF - Cancels the RDM function.  
  - ALL - Plays all tracks in random order.  
  - ALBUM - Plays all tracks in the selected album in random order. |
| **Preview**      | Press PRE to enter the Preview menu, then turn the volume knob to select one of the following options:  
  - OFF - Cancels the PRE function.  
  - ON - Plays first 10 seconds of each track. |
OPERATION OF IPOD/IPHONE

Controlling a Device: Full Control - Music Search Menu

The WM4000 features a powerful music search that simplifies the searching process. Follow the steps below to find the desired song:

**Begin Searching**  Press SELECT to begin the search. The main search menu will appear.

**Select a Category**  Turn the volume knob to select between artists, albums, songs, playlists, podcasts and audiobooks. Press SELECT to select the desired search category. Some categories have subcategories to navigate through. See the table below for details.

<table>
<thead>
<tr>
<th>Search Category</th>
<th>Menu Navigation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Artists</td>
<td>Menu ➡ Artists ➡ Albums ➡ Songs</td>
</tr>
<tr>
<td>Albums</td>
<td>Menu ➡ Albums ➡ Songs</td>
</tr>
<tr>
<td>Songs</td>
<td>Menu ➡ Songs</td>
</tr>
<tr>
<td>Playlists</td>
<td>Menu ➡ Playlists ➡ Songs</td>
</tr>
<tr>
<td>Podcasts</td>
<td>Menu ➡ Podcasts</td>
</tr>
<tr>
<td>Audiobooks</td>
<td>Menu ➡ Audiobooks</td>
</tr>
</tbody>
</table>

**Step Backwards**  Press ESC to return to the previous menu, or exit the search menu when the main menu is shown.

**Playing a Song**  Navigate to the desired song/podcast/audiobook and press SELECT to begin playback.

*Note:* If a specific category is selected, the iPod/iPhone device playback will be limited to that category until another category is selected in the search menu.

**Displayed Information**

**Displaying Information**  Press DISP momentarily to select file/folder name (default), song title/artist, track number/clock & elapsed time.

- (LINE 1) 
  - (LINE 2) 
    - SONG TITLE ➡ ARTIST ➡ SONG TITLE ➡ ALBUM ➡ ELAPSED TIME ➡ CLOCK ➡ TRACK NUMBER ➡ TOTAL TRACKS

**Character Support**  Maximum character display information
- *Song Title – 32 character maximum
- *Artist Name – 32 character maximum
- *Album Name – 32 character maximum

*Song Title, Artist Name and Album Name will only be displayed if included with the file.*
OPERATION OF IPOD/IPHONE

Controlling a Device: Manual Control

When the control of iPod/iPhone feature is set to "MANUAL" in the iPod Menu, use the following functions to control the device:

Manual Control for iPod | When "MANUAL" control is selected from the iPod Menu, the iPod or iPhone device can be controlled directly from the device’s interface. All functions except for volume can be used from the iPod or iPhone device.

Basic Head Unit Control | In addition to manual control of the iPod/iPhone device, the following basic functions are still active:

Song Select | Press ►► to skip to the beginning of the next song. Press ◄◄ to return to the beginning of the current song. Pressing ◄◄ again skips to the beginning of the previous song.

Pause | Press ▶/■ to temporarily stop playback. Press ▶/■ again to resume playback.

Volume | When playing an iPod device, the volume is adjustable using the volume knob.

Device Compatibility

Made for

- iPod touch (4th generation)
- iPod nano (6th generation)
- iPod touch (3rd generation)
- iPod nano (5th generation)
- iPod touch (2nd generation)
- iPod nano (4th generation)
- iPod classic
- iPod touch (1st generation)
- iPod nano (3rd generation)
- iPod nano (2nd generation)
- *iPod nano (1st generation)
- *iPod with video
- iPhone 4
- iPhone 3GS
- iPhone 3G
- iPhone

*These devices are not compatible with manual control mode.

Note: See page 15 for iPod and iPhone device compatibility with iTunes Tagging.
BLUETOOTH® OPERATION

Pairing a Device

Preparation
Before you can use a Bluetooth device, it must be paired and connected. Make sure that Bluetooth is activated on your device before you begin the pairing process.

Pairing a New Device
The WM4000 broadcasts the pairing signal constantly when no devices are currently connected. Complete the pairing sequence from your Bluetooth device. Refer to the owner’s manual for your device for more details.

The device name is "WM4000"
The Bluetooth passcode "1234"

Note: The WM4000 can be in any mode when you can pair a phone.

Pairing Additional Devices
If a device is currently connected, press and hold to disconnect the current device before a new device can be paired. Then begin the pairing sequence from the new Bluetooth device.

(Re)Connecting a Paired Device

Many Bluetooth devices support the auto-connect feature, and will connect automatically if the device is in range when the WM4000 is powered-on. If your device was previously paired but does not connect, use these instructions below. Some devices require authorization to allow the auto connect feature.

Reconnect the last device:
• If your most recently connected Bluetooth device becomes disconnected or does not reconnect, simply press once from Bluetooth mode to reconnect your mobile device.

Reconnect a previously paired device:
• To connect a previously paired device that was not recently connected:
  1. If applicable, press and hold to disconnect any connected mobile devices.
  2. From Bluetooth mode, press SELECT. "Paired List" will appear on the display.
  3. Turn the volume knob to cycle through the list of devices.
  4. Press SELECT or to connect to the desired device. It must be in range to connect.

Note: If the Auto Connect setup menu setting is set to OFF, you must press to connect your device after pairing, and each time the WM4000 is powered-on.

Disconnecting a Device

Press and hold for 3 seconds to disconnect a connected device. The device will remain paired and appear in the PAIRED DEVICES menu, but will not be connected.
BLUETOOTH® OPERATION

Making a Phone Call

**Manual Dialing using IR remote control**
- Press once. "ENTERNUM" will be shown, then an "_" will appear on the display.
- Using the remote control, enter the phone number using the 0-9 buttons. Press on the remote control or WM4000 front panel to begin dialing.

**Placing a call from the phone**
Placing a phone call from your cell phone will also use the Bluetooth function of the WM4000.

**Recent Calls List**
- Press SELECT from Bluetooth mode to view the 10 most recent phone calls that were dialed, received or missed while connected to the WM4000.
- Turn the volume knob to cycle through the recent phone numbers. Press SELECT or to dial the phone number.

**Redialing the last number**
To redial the last phone number, press three times from Bluetooth mode. Dialing will begin automatically.

Receiving and Ending Phone Calls

**Receiving a Phone Call**
Incoming phone calls will automatically appear on the display and a ring tone will be heard.

**Note:** The volume of the ring tone depends on the volume level of the WM4000. The incoming ring tone may not be heard if the volume is set to a low level or mute is activated.

- Press to receive the incoming phone call.
- Press and hold for 3 seconds to refuse the incoming phone call.

**Note:** If Auto Answer is set to ON in the setup menu, all phone calls will be received automatically after a few rings.

**Ending a Phone Call**
During an active phone call, press to end a phone call. If the phone call was received when listening to music in another mode, the WM4000 will resume the previous mode.
## BLUETOOTH® OPERATION

### During a Phone Call

**Volume**
- Turn the **volume knob** to adjust the volume level during a phone call. Bluetooth mode has a separate volume level from the main volume of other modes. The WM4000 will remember the volume level in Bluetooth mode and always return to the last volume level for each phone call.

**Microphone Mute**
- Press **MUTE** during a phone call to turn the WM4000’s external microphone off. Press **MUTE** again to resume microphone operation.

**Audio Transfer**
- Press **DISP** during a phone call to transfer the call from the WM4000 to the cell phone. Press **DISP** again to toggle the audio back to the WM4000.

**Call Waiting**
- During a phone call, if there is a second incoming call, press to place the first call on hold and switch to the second phone call. Press again to switch back to the first call.

**Note:** Audio transfer and call waiting must be supported by the mobile phone and service provider to function properly.

### Bluetooth Setup Menu Options

<td>Set to FRONT to direct the Bluetooth audio output to the front speakers only. Set to ALL to enable Bluetooth audio to output from all 4 speakers.</td>
</tr>
</tbody>
</table>
BLUETOOTH® OPERATION

Streaming Audio Operation

The WM4000 supports A2DP (advanced audio distribution profile) wireless streaming audio from your Bluetooth mobile device directly to your head unit. You can also control your music from the front panel of the head unit using AVRCP (audio video remote control profile).

Notes:
• To stream music to your head unit, your mobile device must support the A2DP and AVRCP Bluetooth profiles. Check the owner's manual of your mobile device for details.
• Streaming audio must be enabled from your mobile device. This option will vary depending on the device. Some devices allow streaming audio to be disabled.

After pairing, connecting and enabling streaming audio from a compatible mobile device, begin playing music using the music player on your mobile device. Once the music is playing, the following functions can be used to control the music:

• The ▶▶ button will skip to the next available audio track.
• The ◀◀ button will skip to the previous audio track.
• The ▶/▶ button will toggle between play and pause during playback.

Note: Some Bluetooth devices may not fully support these commands.

Bluetooth Reset

Resetting the Bluetooth module will remove the list of paired phones and delete the list of recent calls from memory.

To reset Bluetooth, perform the following steps:
1) Press MODE until the head unit is in Bluetooth mode.
2) Press and hold MODE for 5 seconds to reset the Bluetooth settings back to the factory default.

Compatibility Note:

Due to the differences in Bluetooth technology, some mobile devices may be incompatible, function improperly or may not support all features when used with the WM4000.
WEST MARINE ONE YEAR LIMITED WARRANTY

What Does This Limited Warranty Cover?
West Marine warrants to the original retail purchaser of the West Marine product, where the purchase is made in the United States, that the product will be free from defects in materials and craftsmanship with only the limitations or exclusions set out below.

How Long Does This Limited Warranty Last?
This limited warranty is valid for 12 months from the date of the original retail purchase from West Marine within the United States (the “Limited Warranty Term”).

The warranty period is not extended if we repair or replace a warranted product or any parts. West Marine reserves the right to change the availability of limited warranties, at its discretion, but any changes will not be retroactive and will only apply to subsequent purchases.

What Does This Limited Warranty Not Cover?
This limited warranty does not cover:
- Software.
- Commercial or industrial use or operation.
- Normal maintenance items or normal wear and tear.
- Problems resulting from fire or submergence in water or other liquids.
- If the product was damaged, modified or altered by you.
- If the product was used as part of any conversion kits, subassemblies, or any configurations not appropriate or contemplated for this product or its use.
- If damage or loss occurring during return shipment of the product to West Marine or its authorized service representative.
- If the product was subject to improper service, repair, installation, storage, maintenance, alteration or application.
- Problems that result from accident, neglect, abuse, misuse or issues with electrical power.
- Problems caused by accessories, parts or components added to the product that are not appropriate for this product or its use.

THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE (OR JURISDICTION TO JURISDICTION). WEST MARINE’S RESPONSIBILITY FOR MALFUNCTIONS AND DEFECTS IN HARDWARE IS LIMITED TO REPAIR OR REPLACEMENT AS SET FORTH IN THIS WARRANTY STATEMENT. ALL EXPRESS AND IMPLIED WARRANTIES FOR THE PRODUCT INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN TIME TO THE LIMITED WARRANTY TERM (AS SPECIFIED ABOVE). NO WARRANTIES, WHETHER EXPRESS OR IMPLIED, WILL APPLY AFTER THE LIMITED WARRANTY TERM HAS EXPIRED. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU.

WE DO NOT ACCEPT LIABILITY BEYOND THE REMEDIES PROVIDED FOR IN THIS LIMITED WARRANTY OR FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES INCLUDING, WITHOUT LIMITATION, ANY LIABILITY FOR THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES, FOR PRODUCTS NOT BEING AVAILABLE FOR USE, FOR PERSONAL INJURY AND/OR FOR LOST PROPERTY, DATA OR SOFTWARE. OUR LIABILITY AND THE MAXIMUM AMOUNT FOR WHICH WE ARE RESPONSIBLE WILL BE NO MORE THAN THE AMOUNT YOU PAID FOR THE PRODUCT THAT IS THE SUBJECT OF A CLAIM. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.
WEST MARINE ONE YEAR LIMITED WARRANTY

What Must I Do To Keep the Warranty in Effect?
• You must keep your receipt or other appropriate documentation as proof of the date of sale and purchase.
• You must keep your serial number or order number for the product. This is found on the product itself or on your receipt.
• You must not do any of the things that will make the warranty invalid as provided for in this warranty statement.
• You must use, install, maintain and operate the product in accordance with published specifications and the user's manual.

What Do I Do If I Need Warranty Service?
• Before the warranty expires, please call us at 1-800-BOATING. Please also have your West Marine serial number or order number available.
• When you contact us, we will issue a Return Material Authorization Number for you to include with your return. We will also provide you the address of where to ship the product.
• You must return the product to us in its original or equivalent packaging, prepay shipping charges, and insure the shipment or accept the risk if the product is lost or damaged in shipment.

What Will West Marine Do?
During the Limited Warranty Term, if the product you return to us proves to be defective in materials or workmanship and not for the reasons which would otherwise disqualify it (as explained above), we will:

• Repair the product or, if we are unable to repair it, replace it with a comparable product that is new or refurbished;
• Or, as an alternative, at West Marine's option, we will refund you the original purchase price;
• If we repair or replace the product, we will return the repaired or replacement product to you; and
• Pay to ship the repaired or replacement product to you if you use an address in the United States (excluding Puerto Rico and U.S. possessions and territories). Otherwise, we will ship the product to you freight collect.

If we determine that the problem is not covered under this warranty, we will notify you of this when we return your product to you to the address you provide us in the United States (excluding Puerto Rico and U.S. possessions and territories).

We use new and refurbished parts made by various manufacturers in performing warranty repairs and in building replacement parts and systems. Refurbished parts and systems are parts or systems that have been returned to West Marine, some of which were never used by a customer. Replacement parts and systems are covered for the remaining time left in the Limited Warranty Term for the product you bought. West Marine owns all parts removed from repaired products.

Maintenance is the Owner's Responsibility
Cleaning, polishing, lubricating, replacing filters, tuning, replacing worn parts, using your purchased product according to the user's manual, and regularly maintaining your purchased product is your responsibility.

What if I purchased a Plus Protection Plan?
Service will be provided to you under the terms of the Plus Protection Plan contract. Please refer to that contract for details on how to obtain service.

How State Law Relates to the Warranty.
This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

FCC COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
### FM Tuner
- Tuning range: 87.5 MHz - 107.9 MHz
- Usable sensitivity: 8.5 dBf
- 50 dB quieting sensitivity: 10 dBf
- Stereo separation @ 1 kHz: 40 dB
- Frequency response: 30 Hz - 13 kHz

### AM Tuner
- Tuning range: 530 kHz - 1710 kHz
- Usable sensitivity: 22 µV
- Frequency response: 30 Hz - 2.2 kHz

### General
- Speaker output impedance: 4 – 8 ohms
- Line output voltage: 2 Volts RMS
- Dimensions: 7” x 7” x 2” (178 x 178 x 51 mm)

### USB/SD Card
- File system: FAT, FAT32
- File extensions support: .mp3, .wma
- SD Card maximum device capacity: 16 GB

### Bluetooth Profiles
- HFP (hands-free profile)
- A2DP (advanced audio distribution profile)
- AVRCP (audio video remote control profile)

Design and specifications subject to change without notice.
