

Garmin New Chart Guarantee

Garmin is committed to providing updates for their marine cartography products. As updates become available, Garmin makes every effort to ensure the areas of coverage for a given card remain the same. Updates may include new data or Notice to Mariners (NTM) changes.

New Chart Guarantee

When you purchase a new preloaded chartplotter, pre-programmed BlueChart®g2 HD, BlueChart®g2 Vision HD, LakeVü HD or LakeVü HD Ultra microSD™ card, you're entitled to the newest version1 of charts/maps. Visit [Marine Chart/Map Updates](#) to get started. Updated charts/maps will be for the same region (if available²) as the original purchase and are available via download only.

Update Your Preloaded Maps

If your chartplotter came preloaded with BlueChart g2 or LakeVü HD maps, you can update your charts/maps for the most accurate navigation.

Discounted Card Update Program

If you have a preprogrammed BlueChartg2 HD, BlueChart g2 Vision HD, LakeVü HD or LakeVü HD Ultra microSD card, you can update them for a discounted price³. Updated charts/maps will be for the same region (if available²) as the original purchase and are available via download only.
